PROFESSIONAL SUMMARY

Frontend Software Engineer specializing in building scalable, high-performance web applications within the Vue.js and Nuxt 3 ecosystems. Experienced in architecting enterprise management systems, multi-tenant platforms, and automated workflow tools heavily utilizing the Nuxt and Supabase stack. Strong background in delivering streamlined UI/UX experiences, seamless API integrations, and mobile-first, responsive UI development.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, C++, Java, SQL
- **Frontend:** Vue.js, Nuxt 3, Tailwind CSS, Pinia, Mobile-Responsive Design
- **Backend & APIs:** Supabase, REST APIs, Firebase
- **Tools:** Git, GitHub, VS Code, Vercel, Arduino IDE
- **Design Tools:** Figma, Adobe Photoshop, Adobe Illustrator

PROFESSIONAL EXPERIENCE

Rigg Technologies

Junior Software Engineer

Software Engineer Intern

Rajshahi, Bangladesh

Jan 2026 – Present

Oct 2025 – Dec 2025

- Develop and maintain enterprise web applications using the latest Nuxt 3, Vue.js, and Supabase stack.
- Build multi-tenant systems including POS platforms, fleet management portals, and student management systems.
- Engineered mobile-first, responsive user interfaces across multiple distinct client applications, including the REB Auction portal and a Norway Event App.
- Implement complex frontend business logic, inventory workflows, and strict role-based access control (RBAC) systems.
- Integrate frontend applications seamlessly with backend APIs built using Java Spring Boot and Node.js.
- Collaborated with senior engineers during internship to debug applications, optimize performance, and document technical workflows, leading to a full-time offer.

SELECTED PROJECTS

Global Knowledge International Training Institute ERP

Live Site

Tech Stack: Nuxt 3, Vue.js, Supabase, Pinia

- Developed a fully mobile-responsive, multi-tenant ERP platform for an international training institute with secure data isolation.
- Built a frictionless guest-to-student course booking workflow with manual payment verification using transaction IDs.
- Developed an automated certificate generation and verification system using html2pdf, enabling 1-click bulk issuance.
- Implemented attendance tracking, student performance grading on a 10-point scale, and analytics modules for administrative management.

Fleet Management System

Live Site

Tech Stack: Nuxt 3, Vue.js, Supabase

- Developed operational dashboards and voucher management workflows for transportation operations.
- Built mobile-responsive interfaces for vehicle tracking, fuel management, and reporting features.

Student Management System

Tech Stack: Nuxt 3, Vue.js, Supabase

- Developed a scalable multi-tenant portal streamlining administrative tracking for coaching centers and Madrasahs.
- Implemented student enrollment, attendance tracking, and centralized result management features.
- Designed role-specific, mobile-responsive dashboards for administrators, teachers, and students.

SmartPark: IoT-Based Urban Parking Solution

Tech Stack: NodeMCU (ESP8266), C++, Arduino IDE, Firebase, Android

- Configured and flashed firmware for ESP8266 microcontrollers using C++ and the Arduino IDE.
- Integrated sensor data transmission between IoT hardware devices and an Android application through Firebase.
- **Publication:** Co-authored a conference paper detailing the system architecture, available on Google Scholar.

EDUCATION

Varendra University

B.Sc. in Computer Science and Engineering (6th Semester)

Rajshahi, Bangladesh

Aug 2023 – Present

- **Current CGPA:** 3.77 / 4.00
- **Relevant Coursework:** Data Structures, Algorithms, DBMS, Object-Oriented Programming, Computer Graphics, E-Commerce and Web Programming

Madinatul Ulum Kamil Madrasa

Higher Secondary Certificate (HSC) – Science

Rajshahi, Bangladesh

2022

- **GPA:** 5.00 / 5.00

Madinatul Ulum Kamil Madrasa

Secondary School Certificate (SSC) – Science

Rajshahi, Bangladesh

2020

- **GPA:** 5.00 / 5.00

ADDITIONAL INFORMATION

- **Language & Workflows:** Comfortable working in collaborative development environments using Git, GitHub, and agile methodologies.
- **Personal Achievement:** Hafiz-e-Quran.
